OBJECTIVE

Aspiring MCA student with a strong foundation in web development and a passion for technology. Seeking opportunities to leverage my skills in HTML, CSS, Bootstrap, jQuery, JavaScript, and React.js to contribute to innovative web solutions and grow as a professional developer.

TECHNICAL SKILLS

- Web Technologies: HTML, CSS, Bootstrap, jQuery, JavaScript, React.js
- Other Skills: Advance Excel, Figma, GitHub, Template, etc.

PROFESSIONAL EXPERIENCE

Junior Trainee, Dwarkadhish Overseas

August 2023 - Present

- Automated large-scale data fetching from government sites using Python with Pandas and Selenium, managing data in advanced Excel files.
- Utilized Power Automation for smaller tasks and automated email sending with Python.

Freelance Web Developer

Jun 2023 - Present

- Developed and maintained websites with a focus on user-friendly design and responsive layouts.
- Worked closely with clients to understand their requirements and delivered projects within deadlines.
- Provided ongoing maintenance and updates for client websites.

Internships Web Developer

6-Month Internship

- Gained hands-on experience in web development during a 6-month internship.
- Worked on various client projects and contributed to both front-end and back-end development tasks.
